Table 3. National Strategy to Combat Poverty 2021 -2030 (ENCP) – Indicators and targets

Indicator	Target
1: risk of monetary poverty for the total population	To reduce the monetary poverty rate for the population as a whole to 10 %, which represents a reduction of 660,000 people in poverty
2: risk of monetary poverty in children (< 18 years)	To reduce by half monetary poverty in children, representing a reduction of 170,000 children in poverty
3: specific material deprivation rate for children by age (children from 1 to 15 years)	To lower the indicator of child material deprivation so as it becomes closer to the European average, in percentage points
4: at-risk rate of poverty at work (18 years and over)	To reduce by half the rate of monetary poverty of poor workers, which represents a reduction of 230,000 workers in poverty
5: at-risk-of-poverty rate, by region (NUTS)	To reduce the poverty rate gap between territories up to a maximum of 3 percentage points compared to the national average rate
